# A Beautiful Life

with noblessa

# editorial

## Beauty is a lifestyle

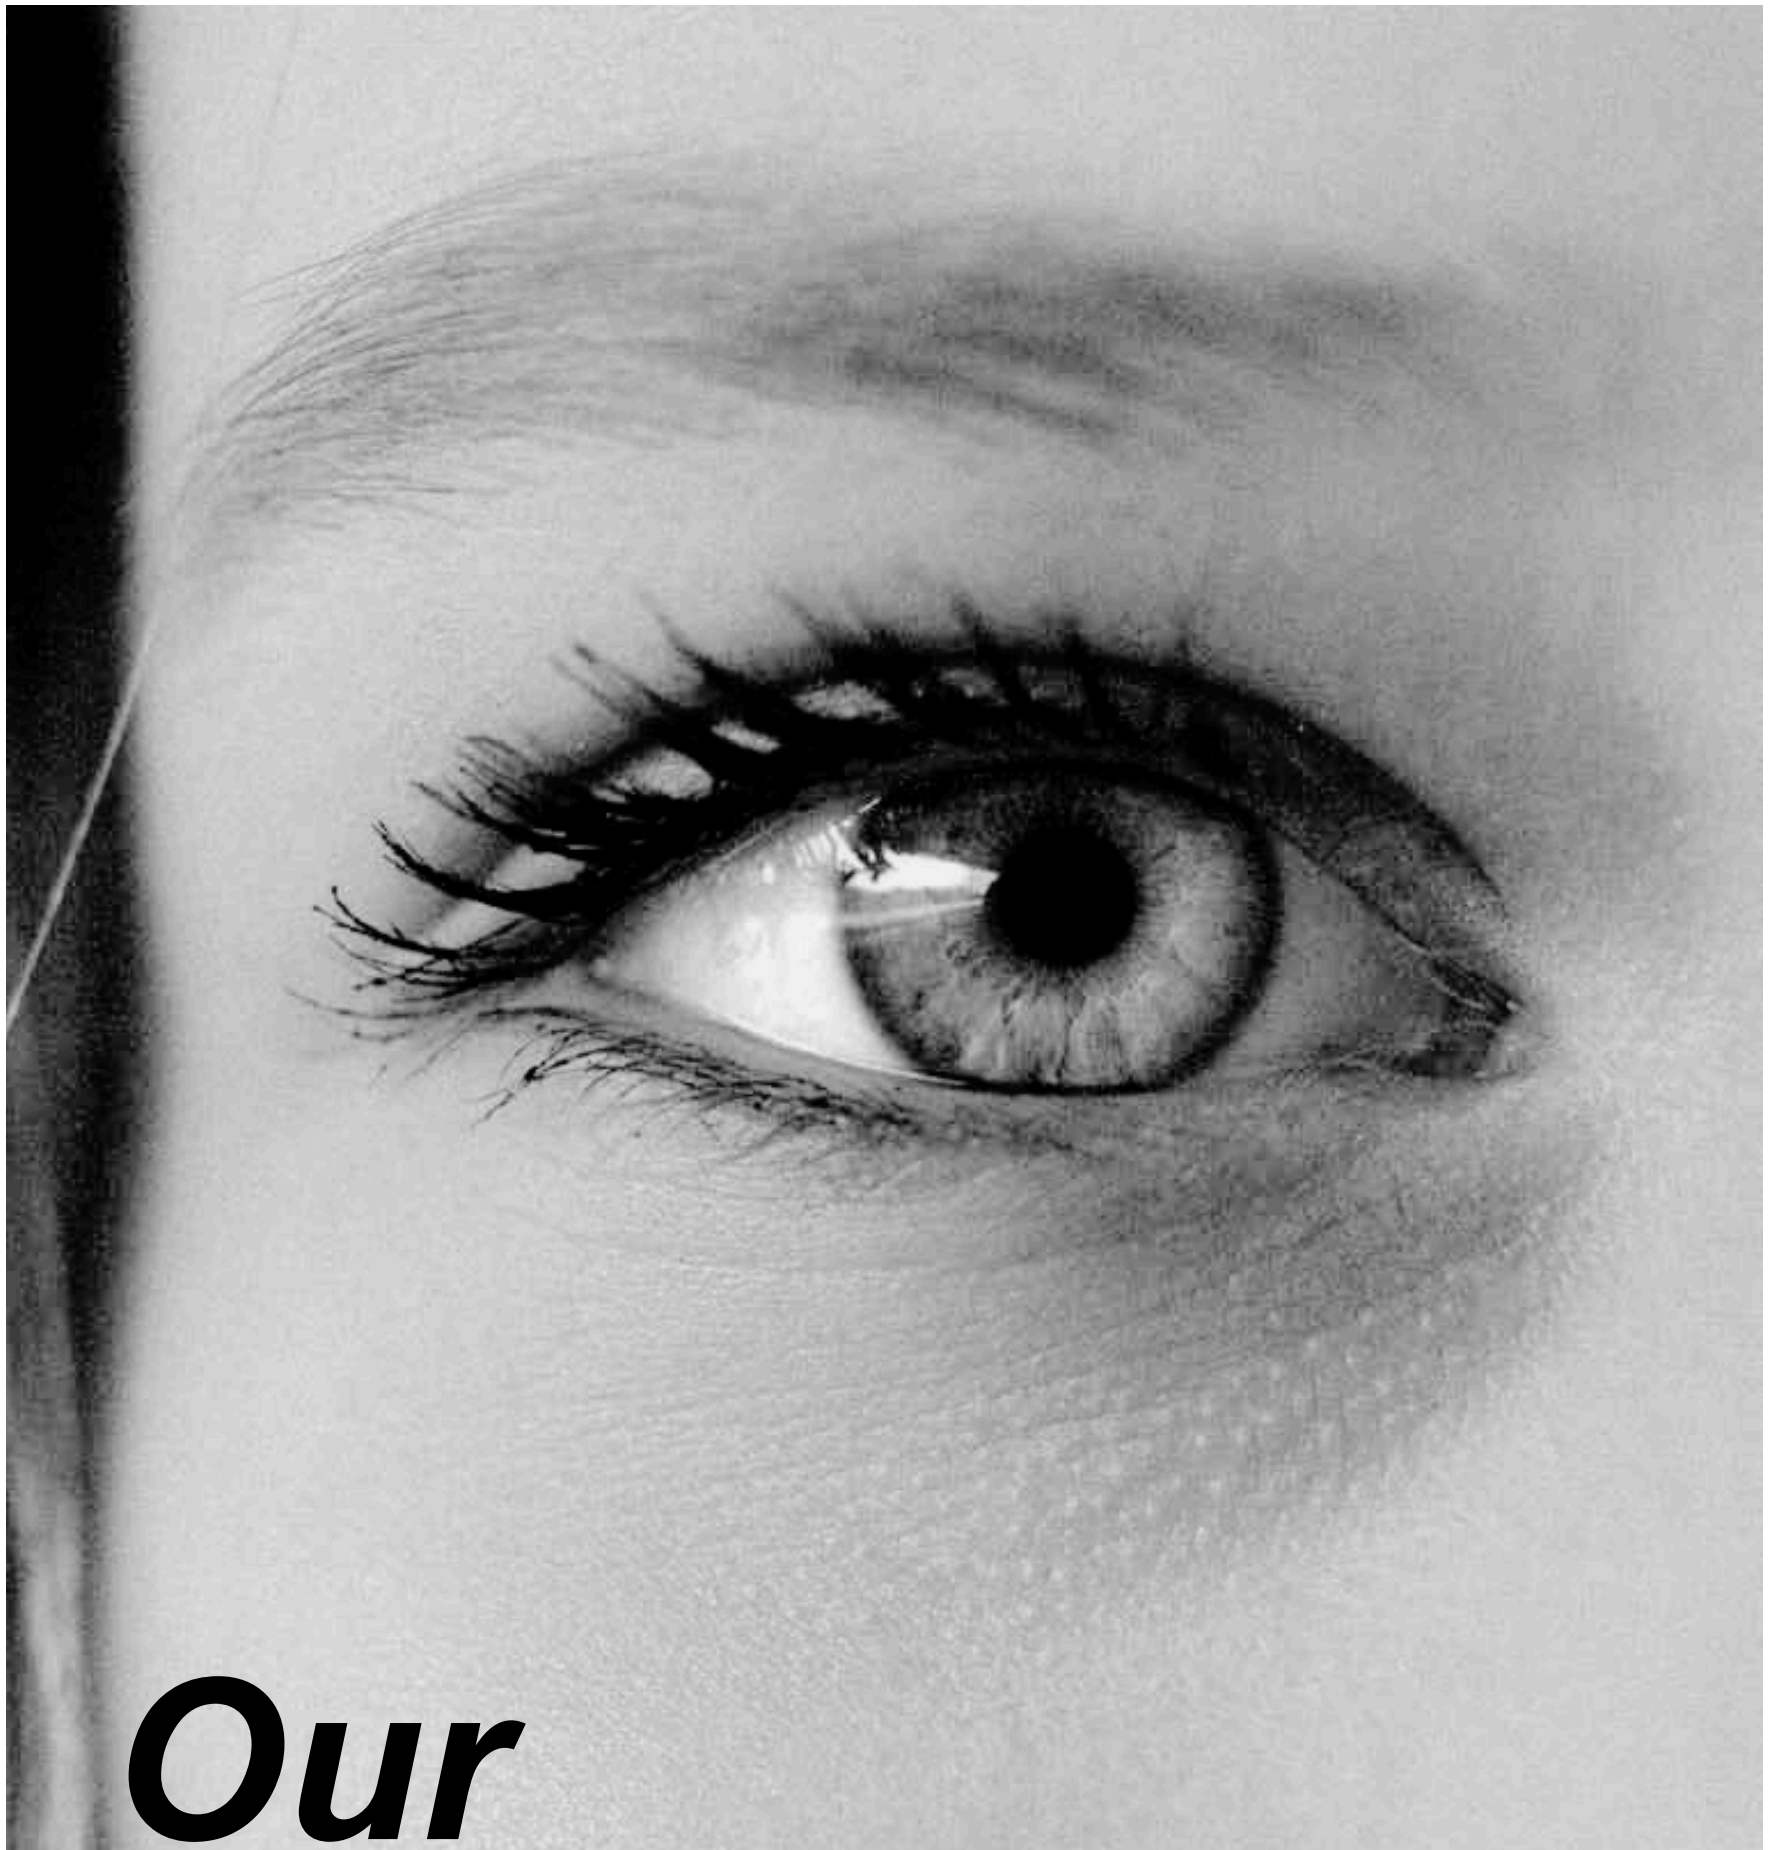

---

The kitchen is the heart of the home, a place where memories are made.

noblessa kitchens are designed for life's moments - from impromptu dinner parties to family art sessions.

Blending sophistication with functionality and craftsmanship, our kitchens set the stage for a life beautifully lived.

# *Our* **Vision**

On the cutting edge of German technical excellence and precision, noblessa is much more than a kitchen manufacturer. Our brand cultivates a luxury vision that is carried forth by our team of talented designers, expert crafting, premium finishes, and optimal quality. As a specialist in interior design and fittings, noblessa offers you a collection of long-lasting kitchens, built with modern lines from the best materials. More than just a kitchen, the entire space is taken into consideration.

We invite you to step through the door of a noblessa showroom. Within these spaces built to inspire you, our experts go beyond the functional aspects of your project to guide you through the steps that bring it to life.

# Our Values

## Customised guidance

When you enter a noblessa store, our experts first ask you what your expectations are. By learning more about you, your lifestyle and your requirements, our team establishes a sincere, unique relationship with you so we can offer you customized guidance.

## Trustworthy quality

Preparing dinner at the last minute, improvising a painting workshop with the kids, celebrating with friends... Because it is at the heart of your home, your kitchen must be equipped for every occasion of your daily life. And to ensure quality that is absolutely trustworthy, noblessa uses high-quality materials that have been rigorously tested and precisely assembled.

## A creative vision

Our experts are not just sales representatives. Intuitive and enthusiastic, they are attentive to your aspirations to provide you with original, innovative plans. They are enthusiastic professionals who use their authentic creative vision to offer you the perfect balance of design, function and ergonomics.

## German excellence

noblessa bears the hallmarks of reliability that have built the reputation of German brands. Our teams' involvement, combined with our workshops' advanced technology, enable us to bring you flawless products. We have extremely exacting standards for our own work, so that you may expect the same from your kitchen.

# Our Standards

A number of quality labels, recognised on national and international levels, authenticate the commitment of noblessa and the compliance of our products. German excellence, which characterises our brand's quality, enables us to offer you a kitchen that is designed to last. And to assure you of this, we guarantee each individual element of it.

## Blue Angel label - PEFC certification

The Blue Angel label is an environmental label organised by the German federal government to protect human beings and the environment. It establishes very high standards, operates independently, and has demonstrated its competence for more than 40 years. Since August 2012, the label has been attributed to a selection of our models. Since 2009, we have also held the PEFC (Pan European Forest Certification) certificate. PEFC certification guarantees that the wood products that you purchase from us are taken from sustainably managed forests and not from a questionable source or an abusive exploitation.

## The golden M

The German golden M represents one of the most important quality certificates both nationally and internationally. It singles out products of a higher-than-average quality in terms of both eco-friendliness and health and safety. This cabinetry is certified stable, reliable, durable and well-crafted, and contains no substances considered hazardous for the health.

## GS "tested quality" label

issued by the LGA laboratory of Nuremberg, this label makes it possible to guarantee safety standards. It is the distinctive sign of quality and security in products that have been tested and inspected.

# Our Services

## Delivery

At noblessa, we take pride in delivering your products as quickly as possible. From the Germany-based workshops to delivery at your home, our team ensures regular, personalised follow-up to see your project through in optimal conditions. Delivery is performed by professionals who are accustomed to the very technical specifications of kitchens and the many requirements of a precise order follow-up. We can thus ensure that the delivery times are respected.

## Design and layout

While the core business of noblessa is designing and fitting out kitchens, our experts provide a global vision of the layout of your home. With consistently top-of-the-line kitchens that fit in harmoniously with your interior, noblessa guides you through the design and layout of all your living spaces. Decoration and planning recommendations from the bedroom to the living room and from the walk-in wardrobe to the kitchen: you benefit from a personalised project follow-up that accommodates your Beautiful Life, whatever your needs.

# Installation

## Installation

noblessa kitchens are designed like the living spaces that they are: places where you enjoy time with those you love. To protect them for as long as possible, each element must be perfectly installed. That is why the noblessa installation partners is made up of responsible professionals who remain continuously available to you, guiding you through to the very last step of your project.

# divine urban

Resolutely contemporary, the Divine design offers a vision of the kitchen that mingles elegance with understatement. The matte facades are protected by a fingerprint-resistant coating. The glass elements feature black steel frames and a built-in lighting system to better reveal their lines.

divine urban

The units of varying heights, combining rust with dark charcoal grey, set an atypical rhythm for this contemporary designer kitchen.

# Work surfaces

Because half of the time that you spend in your kitchen is spent preparing meals, the worktop is the element that you make the most use of on an everyday basis. The choice of material is therefore very important, both of its aesthetic effect and for its quality. The selection is made according to the properties of the materials and your way of cooking.

## Engineered wood

Our engineered wood worktop offers a wide range of finishes. In order to guarantee durability and beauty of noblessa worktop for years to come, we use only select and proven raw materials.

# motion

## The Beautiful Life

according to Harper

---

is being free!

“To me, the kitchen is a true living space. So why should it be separate from the rest of my interior? I spend as much time working there as I do entertaining friends and preparing and enjoying meals. And I don’t just mean the functional side. If my kitchen has an extraordinary style, then I am sure to feel something extraordinary when I am there.”

# sensation

The bright Sensation kitchen is distinctive for the refinement of its soft, well-structured lines. Its elements are highlighted through a clever combination of materials and shelves with built in lights.

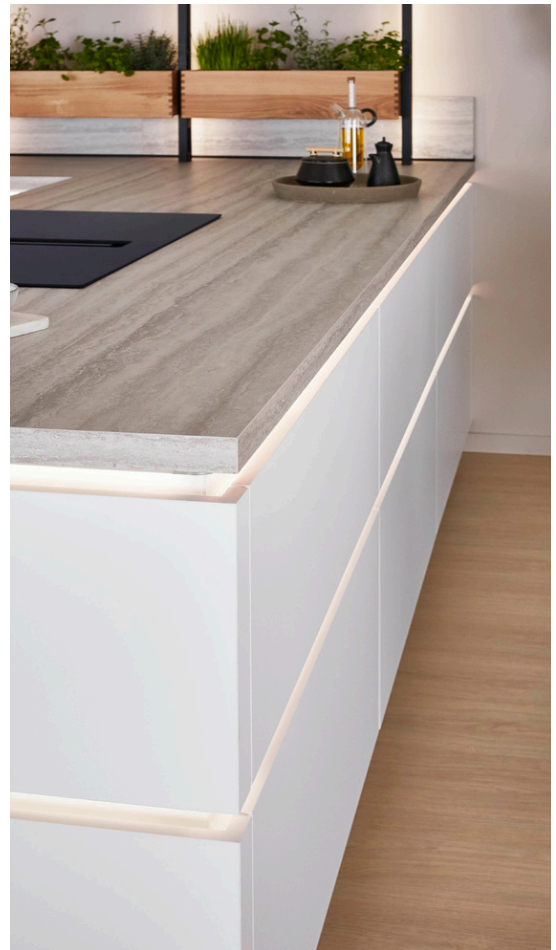

sensation design

01 / Your decorative objects are elegantly showcased thanks to the understated lighting of these shelving units.

---

02 / In the Line N collection, integrated rail lighting adds a refined touch, giving the interiors a sophisticated finish that highlights and enhances the contemporary design.

# Lighting

Depending on your mood, it highlights your kitchen, offering a variety of lighting functions.

## 01 / Work zone

These LEDs may be ingeniously integrated for your visual comfort.

## 02 / Drawer

A convenient, refined system that lights the interior to create an exquisite effect.

## 03 / Ambiance

Light is emitted from indirect sources arranged with style.

# divine

## The Beautiful Life

according to Ava & Dean

---

si falling in love.

"When it comes to decoration, our approach is simple: we have to fall in love. Our kitchen was an obvious choice for us!"

divine design

01 / With black glass doors, the design achieves a sophisticated finish that elevates the interiors with a bold, contemporary elegance.

02 / Handle lighting emphasises the distinctive noblessa worktop.

# Work surfaces

Resistance to thermal shocks, stains, impacts, and scratches... Your work surface is put to the test of your everyday life, and these noble, very high-quality materials are up to the challenge. They are able to guarantee the durability of your kitchen.

## 01 / Bronze Sink

A bronze sink crafted to perfectly harmonize with your design vision

## The Beautiful Life

according to James and Laureen

---

**It's knowing how to entertain.**

“We love to entertain! Friends, family, neighbours... Any excuse will do to hold an informal get-together or a more elaborate meal. We therefore chose a kitchen that enables us to accommodate our guests in elegance. Because the decoration contributes to the atmosphere, the space is as beautiful as it is practical. And when our guests are happy, we're definitely happy.”

**motion** design

01 / The separate sidebaord offers you a refined storage space for your tableware.

02 / Lighted alcoves make it possible to emphasise your decorative objects.

# serenity

## The Beautiful Life

according to Blake

---

is everyday enjoyment.

“To me, happiness resides in pure enjoyment. And what I especially enjoy is to wake up in the morning with a feeling of serenity. With its soft materials and crisp lines, my noblessa kitchen naturally reflects my way of living the present moment.”

serenity design

Designed to inspire, Serenity features a built-in sideboard and dining area that make the kitchen a true social hub.

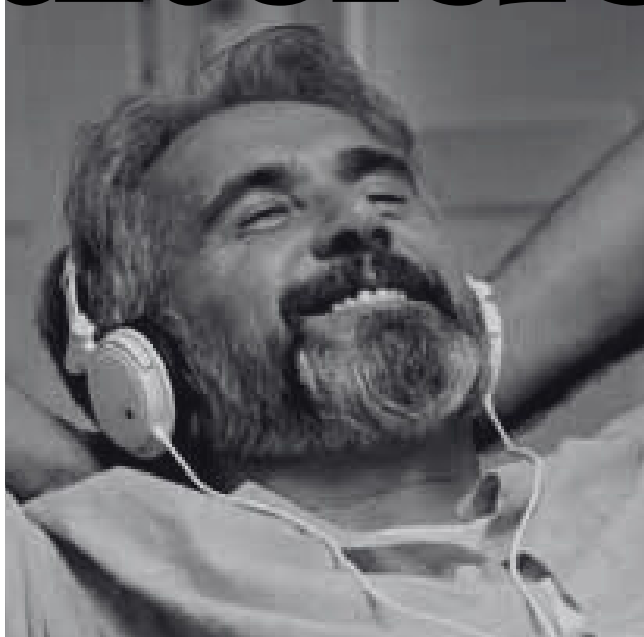

01 / Streamlined handles that emphasise your drawers and cabinet doors with a light touch.

02 / These practical storage spaces are designed with a combination of lifting doors and alcoves to best display your decorative objects and store your tableware.

03 / Beyond the kitchen, Noblessa creates living rooms that echo the same contemporary elegance. Dining area cabinets ensure a harmonious flow, uniting interiors with a sophisticated finish.

# attitude

## The Beautiful Life

according to Ashton

---

**It's about mixing influences.**

"I don't like limiting myself to a single style. For my kitchen, I love the modernity of the urban style. But the authenticity of the rustic style remains timeless. That is why I chose the best of both worlds. It enables me to appreciate every occasion with my family in a welcoming atmosphere. From breakfast to dinner, I'm always satisfied!"

# surf

A resolutely urban kitchen, the Surf design sweeps you away to the atmosphere of a New York City loft. Old meets new through minimalist lines, glossy lacquered facades, wooden drawers and a natural slate work surface.

surf design

01 / A large storage space with sliding cabinets inspired by chemists' storage units.

02 / The Xtra work surface with a slate grey decoration is enriched by practical yet aesthetic sliding cabinets that have been put to use in an intelligent way.

# Storage systems

A well-organised kitchen makes life easier on a daily basis. Your utensils are at your fingertips, and you may effortlessly prepare your recipe like a star-rated chef. Our experts propose clever storage systems to help you optimise your space.

01 / A corner unit optimises precious space.

02 / An ingenious system makes it possible to access your top-shelf accessories more easily.

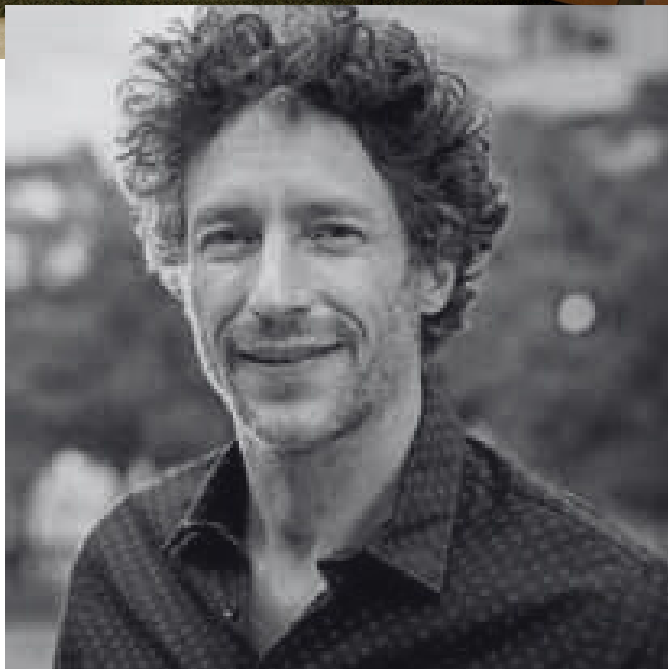

03 / These sliding drawers make it easy to stay organised.

04 / Column units offer a multitude of ways to incorporate large storage spaces or appliances.

# divine nature

## The Beautiful Life

according to Lawrence

It's about openness.

"The kitchen is my haven for exploration and enjoyment. More than just a place to cook, it's a space where I experiment with flavors and share delightful creations with family and friends. In designing my kitchen, I envisioned a place where time pauses, allowing for cherished moments of togetherness and culinary adventure."

# divine nature

This contemporary kitchen breathes new life into classic design, merging earthy elegance with modern functionality. Personalize your space with wood details and natural tones for a timeless kitchen that extends the warmth of the outdoors, indoors.
